## About Us

Having portable light is important, be it at home or during camping or any other location. Needless to cite, the problem of power cuts, is growing the need of portable lights and we, **Mahalaxmi Industries (MLI)**, are providing solutions for the same in the form of Rechargeable and Battery Torches.

Our collection containing **Battery Operated Torches and Rechargeable Torches** bring the convenience of lighting at any location and time. Problems related to no access to power are solved with our smart torches, which are available in the best sizes, designs, colors and wattage options.

As a modern **manufacturer, trader and exporter**, we put the best of raw materials and technologies to use so that better collection of torches is manufactured and customers get cost-effective benefits on investing in our range.

**Mahalaxmi Industries (MLI)** is one of the most reputed manufacturers of premium quality LED flashlights in the country. Developed by a team of skilled professionals, MLI commenced its business in 2010. We are acknowledged as an industry leader which is providing end-to-end designing & manufacturing solutions of supreme quality flashlights and products of multiple categories of the leading Indian brands.

## Manufacturing Excellence

We have a huge and advanced torches production plant at Roorkee, Uttarakhand (India). With hi-tech production systems installed at this plant, we produce a huge capacity of torches in numerous specifications and delight customers with our promise of providing on-time delivery. At our plant, we also have great storage space, where finished torches are packed and stored for safe and quick delivery. Our facility is installed with hi-tech Injection Moulding Machine obtained from Ferromatik, Toshiba and Windsor brands. We also have Plastic Ultrasonic Welding Machine of Branson brand.
